Reviewer's report

Title: "Genotype-first" approaches on a curious case of idiopathic progressive cognitive decline

Version: 2 Date: 23 August 2014

Reviewer: Christopher McCabe

Reviewer's report:

I may a few minor comments. In general it was a very well written paper with a lot of supporting evidence.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
