Reviewer’s report

Title: Adopting clinical genomics: a systematic review of genomic literacy among physicians in cancer care

Version: 2 Date: 23 Jan 2018

Reviewer: Kurt Christensen

Reviewer's report:

The authors have done a commendable job addressing my concerns. In production, try to be consistent about how statistics are reported (e.g., none or one decimal when reporting percentages) and gene names are reported ("BRCA1/2" or "BRCA 1/2"), and make sure gene names are formatted according to journal recommendations (e.g., italicize gene names). Also, make sure the abbreviations are defined at their first instance of use (e.g., "MO").

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
