Reviewer's report

Title: Evaluation of Diet Pattern Related to the Symptoms of Mexican Patients with Ulcerative Colitis (UC): Through the validity of a questionnaire.

Version: 4 Date: 4 February 2015

Reviewer: Beng San Yeoh

Reviewer's report:

Minor Essential Revisions:

1. Spelling mistake 'recluted' in the second sentence of 'Study population for the questionnaire application' section under method section.

2. Replace the word 'no produced symptoms' to 'did not produce symptoms' in the sentence below:
   'Furthermore, we evaluated foods not associated with symptoms (less than 6%) (Figure 4) and our results demonstrated that foods rich in omega-3 (vegetable oils) no produced symptoms in UC patients'

3. Figure legend for Figure 2 need to be corrected to 'compared to patient with active UC'

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
