Title: A survey of diet self-efficacy and food intake in students with high and low perceived stress

Version: 4 Date: 30 March 2015

Reviewer: Peter Hannan

Reviewer's report:

Much improved resubmission - one remaining problem.
1. The text (lines 313-322) reports on "fat intake" (line 314), but the figure (line 322 and figure 1) displays the graphs for "fat score". And similarly, the text (329-337) reports on "sodium intake" (line 329), but the figure (line 337) displays graphs or "sodium score"). This mismatch needs to be explained.
