Title: Reliability of dietary patterns assessed with a food-frequency questionnaire

Version: 2  Date: 9 July 2015

Reviewer: Garden Tabacchi

Reviewer’s report:

Discretionary Revision

The authors have definitely improved the manuscript and it is ready to be published. The title has been changed as requested, even though I would suggest to consider adding the "food frequency questionnaire" term in the title.

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
