**Reviewer's report**

**Title:** Fast food increases postprandial cardiac workload in T2D, which pre-exercise cannot modify: A pilot study.

**Version:** 2  
**Date:** 30 June 2015

**Reviewer:** Hidetaka Hamasaki

**Reviewer's report:**

The authors politely and precisely respond to the reviewers comments. However, medical agents use is not sufficiently described in the revised manuscript.

I would suggest to show the data in Table 1. (The authors showed the list of medical use in rebuttal letter, though)

Thank you for the opportunity to review your manuscript.
