Title: Health outcomes of non-nutritive sweeteners: analysis of the research landscape

Version: 1 Date: 31 Jul 2017

Reviewer: Celeste Naude

Reviewer's report:

Congratulations on the detailed and extensive revisions to this paper, which has been an enormous amount of work. It now presents a comprehensive, well-structured and well-interpreted mapping of the evidence on health outcomes possibly associated with NNS intake, that is aligned with the main aim of the paper. I commend the authors for examining such a vast body of literature and producing a useful product that can highlights gaps, and can inform syntheses, primary studies and decision-making.

A few grammatical and sentence structure corrections remain.
