Title: The effects of EPA and DHA enriched fish oil on nutritional and immunological markers of treatment naïve breast cancer patients: A randomized double-blind controlled trial

Version: 1 Date: 17 Sep 2017

Reviewer: Alison Coates

Reviewer's report:

The authors have addressed most of the concerns raised previously however in the interest of clarity and transparency in reporting outcomes I do think that the lipid and glucose results should be included in text regardless of the lack of significance so the authors are asked to add these details.
