Reviewer’s report

Title: Including pork in the Mediterranean diet for an Australian population: Protocol for a randomised controlled trial assessing cardiovascular risk and cognitive function

Version: 0 Date: 09 Oct 2017

Reviewer: Anna Marco

Reviewer's report:

This article proposes the introduction of lean pork meat as a protein source in an adapted Med diet to the Australian population. It is very well written, the introduction is appropriate, full details about MedDiet and low fat diet and how to introduce pork in the diet are given in Appendices. The study design, measurement of clinical parameters and statistics are also well detailed. The paper can be accepted without further revision.
