Reviewer’s report

Title: Including pork in the Mediterranean diet for an Australian population: Protocol for a randomised controlled trial assessing cardiovascular risk and cognitive function

Version: 1 Date: 27 Nov 2017

Reviewer: Maria Trinidad Soria Florido

Reviewer's report:

I would like to thank the authors for the kind and careful responses provided to my concerns and suggestions.

As human nutritionist working on the relationship between cardiovascular diseases and Mediterranean Diet and considering the part played by Mediterranean diet on the prevention of a wide range of chronic diseases, I find the job carried out by the authors both exciting and challenging, bearing mind the intrinsic complexity of attempting to implement a Mediterranean diet on a non-Mediterranean population where food supply (among others) poses a mayor obstacle to achieve this goal.
