Reviewer’s report

Title: The Effects of Two Vitamin D Regimens on Ulcerative Colitis Activity Index, Quality of Life and Oxidant/Anti-Oxidant Status

Version: 2 Date: 07 Feb 2019

Reviewer: Michael Holick

Reviewer's report:

The authors have made significant revisions. For completeness the authors may not be aware of publications that have reported the actual effect of inflammatory bowel disease on vitamin D absorption. The references that they provide are only an indirect measurement of vitamin D absorption. See Farraye et al Inflamm Bowel Dis 2011;17:2116-2121; Lo et al. Am J Clin Nutr. 1985;42:644-649 which they may want to include in their discussion and reference list.

Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
