Title: Socioeconomic and ethnic differences in the relation between dietary costs and dietary quality: The HELIUS Study

Version: 0 Date: 21 Feb 2019

Reviewer’s report:

Study entitled "Socioeconomic and Ethnic Differences in the Relation between Dietary Costs and Dietary Quality: The HELIUS Study" is a well-designed study explaining the associations between education status, dietary quality and dietary costs among different ethnic groups living in Netherlands.

As a minor revision, I would ask the authors to explain in Figure 1, what "lower diet costs" "medium diet costs" and "higher diet costs" mean in terms of euros, so that the readers can understand the dietary cost concept more clearly.
