Reviewer's report:

The authors have addressed correctly the most part of my comments.

I suggest them to add again some precisions:

1. Please add indications as regard the obtained CV based on the measured quality control samples. Or, just indicate if the measurement performances met the desired specifications (RICOS or those of the French Society of Clinical Biology) for example.

2. Please specify if the physical activity questionnaire was validated prior to its use or not?

Level of interest

Please indicate how interesting you found the manuscript:
