Reviewer’s report

Title: Adolescent wine consumption is inversely associated with long-term weight gain: Results from follow-up of 20 or 22 years

Version: 1 Date: 16 Jul 2019

Reviewer: Belay Bancha

Reviewer's report:

Thank you for the revision of the manuscript so that your work will contribute in the field of nutrition. Hoping that more is yet to come to clear inconsistent findings, the following points to be corrected

#1. The background in abstract as well in the body should narrate about wine consumption as long as the title is modified.

#2. Consider the correct use of spaces particularly between words and citation. Also in the statistics part.

#3. Use similar font and font size sizes in the sentences and paragraphs throughout. (e.g. line 124-126, 211-212, 225-228, etc...)

#4. Please correct the indentation and check for the duration of follow up (line 55).

#5. Would you Paraphrase statement in line 118, avoiding one of the two "samples" preferably the first one?

#6. Was it SES of adolescent or their families (line 127)?

#7. Why there's no request for ethical approval at the baseline (line 260-261)?
