Reviewer's report:

I thank the authors for considering my comments and I commend them for this excellent revision. I believe it has strengthened this well written manuscript, that addresses a very interesting and relevant subject. I only have a few minor comments listed below:

Line 148: Are you using the same method as the authors in reference 26? If so, please clarify this in the text as it is not clear that this reference is focusing on the methods you describe. Also check the reference list for this citation, the "pdf" seems misplaced here: Marla Reicks, Jean Randall BH. Factors Influencing Fruit and Veg Consumption in Low Income.pdf. J Am Diet Assoc. 1994;94(11):1309-11.

Line 123: Please remove the extra full stop before reference 23

Line 164: Move full stop to after (Table 1)

Line 195: Possibly clarify that the quote for participant 2 is a confirmation of what participant 1 says.

Line 325: Seems like the font size has changed

Line 412: Remove extra parentheses sign

Line 420. Please remove the extra full stop before Table 2

Line 424: Please change "obese children" to "children with obesity", in order to use a less stigmatizing language.

Table 2: Font size differs for Support Groups for Parents. I suggest adding "Rx" to the list of abbreviation (I was not aware that this meant prescription).

Publons Reviewer Recognition. Springer Nature can send verification of this review directly to Publons (a subsidiary of Clarivate Analytics). If you would like to take advantage of this service, please click on the “Yes” option below. Your name, email address, title of the reviewed manuscript, name of the journal, and date of your review submission (the “Review Data”) will then be transmitted to Publons upon publication of the manuscript. If you have already registered at Publons, they will notify you of the receipt of this review and update your profile as per your settings and their policy. If you are not registered with Publons, you will receive an email from them asking you to register in order for them to be able to recognize your review on your new profile page. Publons may use the Review Data to generate derivative metadata for the benefit of Publons and you as a reviewer, carefully considering the sensitivity of such information. For example, Publons may verify your record as a reviewer by updating your profile published on its webservice if you have registered for such service or help editors to identify candidate reviewers.
