Reviewer’s report

Title: Hair Product Use, Age at Menarche and Mammographic Breast Density in Multiethnic Urban Women

Version: 1 Date: 01 Dec 2017

Reviewer: Zorimar Rivera-Nunez

Reviewer's report:

The new table and text including models adjusted for race/ethnicity are the most appropriate approach. I agree that no overlapping may create some structural confounding. However, this (race/ethnicity) is information that is available and can be accounted for. There is probably confounding from other variables such as diet or other environmental exposures that are not available but potentially have an effect. This paper has important information given the large population using these products. Finally, I will suggest a comprehensive editorial review since I see a few typos.
