Reviewer’s report

Title: Saliva cortisol in relation to aircraft noise exposure: pooled-analysis results from seven European countries

Version: 0 Date: 18 Sep 2019

Reviewer: Gholamreza Pouryaghoub

Reviewer's report:

Dear authors

Why did you merge daytime and night-time annoyance data? Daytime score may correlate well with evening saliva cortisol, and night-time score with morning saliva cortisol. Merging this data may result in inaccurate conclusion.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organisation that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?
6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

None
