Reviewer’s report

Title: Association between long-term exposure to ambient air pollution and prevalence of diabetes mellitus among Malaysian adults

Version: 1 Date: 01 Oct 2019

Reviewer: Evi Dons

Reviewer's report:

The authors have responded to most of my comments and concerns. I do have one remaining issue which I already mentioned before: Some people live >100km away from the closest monitor. You should do a sensitivity analysis by excluding participants living for example >50km away from a monitor and calculate new odds ratios. This way you can get an idea about the exposure measurement error.
