Reviewer’s report

Title: Evaluation of sepsis induced cardiac dysfunction as a predictor of mortality

Version: 0 Date: 22 Oct 2018

Reviewer: Ana Djordjevic-Dikic

Reviewer's report:

Author should be congratulated for the undertaken work.

There are some point that should be clarified:

1. First it should be written in Methods that APACHE II and Sofa score will be included in analysis, and explained briefly. (APACHE is one of the predictors of poor outcome)

2. Secondary endpoint (length of ICU stay) should be erased, since it is not mentioned anywhere later. 4th page 1 row.

3. 3rd Paragraph in discussion is confusing and should be deleted.

4. Author should indicate the clinical significance of the study.

Level of interest

Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
