Reviewer's report

Title: Coexistence of Aortic Valve Stenosis and Cardiac Amyloidosis: Echocardiographic and Clinical Significance

Version: 0 Date: 29 Oct 2019

Reviewer: Kye Hun Kim

Reviewer's report:

In this manuscript, the authors aimed to assess the prevalence of aortic valve stenosis in patients with cardiac amyloidosis and to examine the potential role of dobutamine stress echocardiography in patients with cardiac amyloidosis and suspicious for low flow-low grade aortic stenosis.

It is a well-conducted study, and the manuscript itself is well written and the findings are well presented. I have three minor comments.

Minor comments:

1. There were no mentions about statistical analysis authors used in the methods section. Here by, I would like to suggest authors to describe details on statistics in the method section.

2. I believe that there might be a technical problem... there is no image related to the Figure 1 legend. Please check again and present it again.

3. Authors have presented a table showing the characteristics of patients with cardiac amyloidosis and aortic stenosis in table 2.

It would be better if authors provide further information on their clinical progress regarding medication they prescribed and clinical outcome including mortality, because authors have enrolled patients who diagnosed between 2009 and 2019.

**Declaration of competing interests**

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
