Title: Fragmented QRS as an early predictor of left ventricular systolic dysfunction in healthy individuals: A nested case-control study in the era of speckle tracking echocardiography

Version: 0 Date: 21 Mar 2020

Reviewer: Giovanni Coluccia

Reviewer's report:

The Authors present interesting data about QRS fragmentation and its possible role as an early predictor of left ventricular systolic dysfunction (detected by means of speckle tracking echocardiography) in a population of healthy individuals.

Extensive language revision is required, both to amend major gramatical errors and for the fluency of the text: it is advisable to refer to an English speaking reviewer.
