Reviewer’s report:

Is an excellent paper, is a very important issue to discuss.

The paper ask to students about their perceptions about job in rural areas wich is a very important information to know about the professional decisions in this matters.

I think that this information is very important to policy makers as the authors focuses in the discussion, but is also very important to make recommendations seeking changes in the orientation of schools programs. medic, nurse and midwife.

I think that authors should make conclusions and recommendation aimed at improving curricula and professional profiles of them.
