Reviewer's report

Title: What will make a difference? Assessing the impact of policy and non-policy scenarios on estimations of the future GP workforce

Version: 0 Date: 14 Oct 2016

Reviewer: Michel Landry

Reviewer's report:

This is a good manuscript, well written and specific. It does make some major assumptions, and is relevant for South Australia, but applicability elsewhere may be limited. There is not much to learn here, unless the reader is a policy maker in SA. I did not have a good look at the statistical methodology, and so others would need to examine this with much more detail.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:
