Reviewer’s report

Title: The current situation of human resources for health in the province of Cabinda in Angola: Is it a limitation to provide universal access to healthcare?

Version: 1 Date: 14 Dec 2016

Reviewer's report:

I would start by acknowledging significant effort from the authors in attempting to improve their manuscript according to the recommendations of different reviewers, including mine. However, the paper is still lacking appropriate quality for publication, mainly due to great deficiencies in the quality of scientific writing (and not only related to English language). All sections of the manuscript requires revision. I highlighted some in the attached word version of the manuscript, but I lament to say that there is a need for MAJOR REVISION of the whole manuscript.
