Reviewer’s report

Title: Workforce Patterns in the Prevention of Mother to Child Transmission of HIV in Côte d'Ivoire: A Qualitative Model

Version: 1 Date: 10 Dec 2017

Reviewer: Martha MacLeod

Reviewer’s report:

The revisions have been made satisfactorily. Thank you. It is a very good article.

A need for one small edit remains. The revised sentence is too convoluted and does not make enough sense. It needs to be put into two sentences, perhaps.

"This study assesses the impact of workforce patterns (including workforce inputs such as numbers of healthcare workers, healthcare worker roles and responsibilities and workforce-related barriers and facilitators of PMTCT services) impact Option B programmatic success in Côte d'Ivoire."
