Title: Mapping educational opportunities for healthcare workers on antimicrobial resistance and stewardship around the world

Version: 1 Date: 10 Dec 2017

Reviewer: Juan Castelli

Reviewer's report:

The paper is a well done manuscript about a very important health problem around the world. The most of suggestions were do by previous reviewers, therefore I will only make some suggestions.

The map could be done on a free and collaborative tool like Google Maps, allowing the possibility to see more precisely where and in what languages (English or French) there are education and training programs on AMR / AMS. It could even be a platform used by WHO / PAHO to improve the visibility of these programs

Some additional suggestions:

Page 7 - line 37: I should say "North America" instead of "Americas" the only country painted are USA and Canada.

Page 11 - line 28: the term appls is correct?? Or "apps"
