Job preferences of undergraduate nursing students in eastern China: a discrete choice experiment. By Tongtong Liu, et al. This manuscript is extraordinarily well planned and well presented. I am fully satisfied with its sections, its references using standard recognized sources, well presented results, with well designed and constructed data, followed by comprehensive discussion and conclusions. May be, it would be useful to add a reference on the "Bianzhi" for our wide-scope of readers who may wish to know what that term means. I may suggest a simple and well written paper on Bianzhi as follows: Kjeld Erik Brodsgaard (2002). Institutional Reform and the Bianzhi System in China. The China Quarterly, 170 (June, 2002), pp. 361-386. I recommend accepting the manuscript for publication in HRHe.
