Reviewer’s report

Title: Forecasting imbalances of human resources for health in the Thailand health service system: application of a health demand method

Version: 0 Date: 30 Aug 2018

Reviewer: Orvill Adams

Reviewer's report:

The article presents a good overview of the HRH planning and the importance incorporating health demand. I believe that the article can be improved with a short paragraph that acknowledges the need to question the appropriateness of the 'utilization' (services delivered). The planning process used and the multi-professional approach is good. The paragraph which suggests that the HRH requirements are likely to be estimated could be rethought.
