Title: Policy review on the management of pre-eclampsia and eclampsia by community health workers in Mozambique

Version: 1 Date: 19 Dec 2018

Reviewer's report:

Thank you for addressing my initial comments. The changes have improved the clarity of the manuscript for readers less familiar with the picture in Mozambique. Unfortunately, I still am struggling to see the relevance of the bulk of the findings to the stated aim and title. There continues to be a disconnect between background and discussion sections and the results. Given the title and aim of this manuscript, the results should also focus on policy as it relates to the management of pre-eclampsia and eclampsia by CHW. Perhaps what is necessary here is a change in the manuscript title / aim to better reflect the content of the manuscript. I understand that the timeline and policy review were necessary to make sure that no previous policies addressed the topic of interest and to put the review in context. Given this, perhaps it is not necessary to include all of the historical information, but to instead focus on the information that actually addresses the stated aim of the study.
