Reviewer’s report

Title: Does medical training in Thailand prepare doctors for work in community hospitals? An analysis of critical incidents

Version: 0 Date: 16 May 2019

Reviewer: Wasana Hongkan

Reviewer's report:

This study had limited benefit for medical educator and policy maker in Thailand. There were limited in sample size and specified only family medicine residents with variable of years after graduation. This study cannot reflect the nationwide preparation for community hospital medical training in Thailand but it shows some interesting data for re-evaluation the nationwide data.
