Title: Does medical training in Thailand prepare doctors for work in community hospitals? An analysis of critical incidents

Version: 1 Date: 01 Jul 2019

Reviewer: Andreasta Meliali

Reviewer's report:

1. The terms 'dilemma" (in conclusion) must be elaborated in the discussion and normally it has been mentioned in the earlier section. What is the dilemma and why can it be experienced in the rural area. Is it also related to the curricula of the medical school which emphasize on the advanced clinical science (which is mostly inapplicable in the rural setting)?

2. Explanation on "normal and rural track" in the medical school is also needed. Further more, is this research comparing both groups? Has it been mentioned in the method section?
