Title: Transforming Tuberculosis (TB) service delivery model in China: Issues and challenges for health workforce

Version: 1 Date: 06 Aug 2019

Reviewer: Nathan O'Hara

Reviewer's report:

I thank the authors for their response to the initial review. I appreciate their clarification on the purpose of the study and the limitations of the study design. The authors report that the OLS regression is available in the Appendix. However, I did not receive a copy of the Appendix in the revised submission and therefore, am unable to evaluate this addition to the manuscript.

I have one remaining suggestion. In line 284 of the Discussion, the sentence "TB health workers showed limited TB knowledge" should mention that this is compared to the public health workers.
