Title: Patient Satisfaction with Physician Assistant/Associate Care: An International Scoping Review

Version: 1 Date: 03 Jul 2019

Reviewer: Edward Timmons

Reviewer's report:

The authors provide an interesting literature review on patient satisfaction from physician assistants. The authors provide clear guidelines for exclusion criteria and make reasonable recommendations. The time period is quite large and results are pooled together for several countries. My comments focus on the issue of scope of practice.

1) Are there key differences in scope of practice of PAs between the US vs. UK vs. NZ etc? This might allow for better understanding of differences in results and assist international readers.

2) The scope of practice of PAs has evolved significantly over time. Some acknowledgement of this change and how it might affect patient satisfaction would be most helpful.
