Title: Patient Satisfaction with Physician Assistant/Associate Care: An International Scoping Review

Version: 3 Date: 13 Oct 2019

Reviewer: Edward Timmons

Reviewer's report:

I understand that scope of practice is not defined as a term until the 90s– I think this point from the authors further highlights the differences here over time. I also understand that the authors are focused on patient and not provider satisfaction. On p.16 in the highlighted paragraph, why not briefly highlight differences observed (if any) pre-1986– before SOP is defined– and post-1986 after SOP is defined?
