The Impact of a Global Health Elective on CanMEDS Competencies and Future Practice

By Ashley Lanys et al.

Reviewer's Report: 02-10-2019

This is a short, but significant report on a much-needed area of self-perceived long-term impact evaluation of training. Despite the limitations already and clearly stated in the manuscript, the study presents a "laidback" kind of technique that permits obtaining such evaluation. No doubt, future studies on same can improve this methodology and overcome the limitations and, again, as described by authors. I recommend publishing this manuscript as it is.
