Reviewer's report

Title: INA-RESPOND: A Multi-center Clinical Research Network in Indonesia

Version: 1
Date: 21 April 2015

Reviewer: Wil Dolmans

Reviewer's report:

Minor Essential Revisions:
1. Background, towards end of 2nd par.: ... NIH to develop a network that could potentially BECOME (not: becoming) a leading scientific collaboration ....
2. Authors information: MHG is an infectious diseases specialist .... Universitas Diponegoro, SEMARANG (NOT: Bandung).
3. Figure 2: Within the Box "Disease Control for Environmental Health", the first item probably is meant to be: Directorate of SEXUALLY Transmitted Disease Control.

Discretionary Revisions:
Research Implementation and Current Studies, 2nd par.: Protocols are reviewed ......, followed by the Institutional Review Board (IRB) of record. COMMENTS: I would suggest here to be mentioned explicitly: ...., including Research Ethics Committee review.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Declaration of competing interests:
None of it all.
