Title: Doctoral Level Research and Training Capacity in the Social Determinants of Health at universities and higher education institutions in India, China, Oman and Vietnam: A survey of needs

Version: 0 Date: 17 Oct 2016

Reviewer's report:

In general, the topic is relevant, and training conditions for Public Health should be published. The paper, however, would be more interesting to the readers if it is considerably shortened. I am afraid there is too much text for the messages conveyed. It is difficult to give detailed guidance where to skip parts. For example, I find the discussion too much repeats the statements given before.
