Title: Impact assessment of Iran's Health Technology Assessment Programme

Version: 1 Date: 18 Oct 2017

Reviewer's report:

My previous comments in regards to this manuscript have been performed by authors, but in relation to my last comment namely:

"Some HTA projects like PET scan, MRI 3 tesla, HBOT, HIFU prostate, Dual source CT angiography have big impacts on controlling of induced demands and controlling the market expenditures in Iran, I sensed this impact when I worked in HTA dept of Iran MOH as technical officer."

The explanation of authors is not acceptable, these projects have high cost saving for Iran's health system, I think, the authors should elaborate the impact of at least one or two of mentioned projects; this matter will give a comprehensive view of HTA impacts in Iran.
