Reviewer’s report

Title: The Impact of National Health Insurance (NHI) upon accessibility of health services and financial protection from catastrophic health expenditure: a case study of Savannakhet province, Lao PDR

Version: 1 Date: 29 May 2019

Reviewer: Daisaku Goto

Reviewer's report:

The revised version of the manuscript is much improved. However, I think honestly reader would find little interest in this paper. Comparing with health insurance schemes, the NHI (flat fee payment system) is more attractive for poor. Because they don't have to pay for insurance fee in advance. They just utilize the NHI only when they have a health problem. It might be obvious.
