Title: Mapping Evidence of Free Maternal Healthcare Financing and Quality of Care in Sub-Saharan Africa: A systematic Scoping Review Protocol

Version: 0 Date: 07 Aug 2019

Reviewer: Henry Uro-Chukwu

Reviewer's report:

This is a good protocol but I suggest it should be sent in as a commentary rather than using the format of a review paper. It is very confusing in its present state in which it is reported in present terms and in the format of a scoping review. Discussing what can be done in each section - Methods, results, discussions and conclusions will be better and more effectively conveying as a commentary.
