Title: Service providers’ experiences of disrespectful and abusive behavior towards women during facility based childbirth in Addis Ababa, Ethiopia

Version: 0 Date: 19 Sep 2017

Reviewer: R King

Reviewer's report:

This is a well structured research design that reports on a field of relevant interest to those interested in improving maternal health outcomes

Ethics approval was gained from the hospital and whilst in principle support was given by Addis Ababa Health Bureau, ideally ethics processes be facilitated in all the agencies where data is collected

Commentary of future directions for research in this field in Ethiopia would be a valuable addition
