Reviewer’s report

Title: Miscarriage hospitalisations: A national population-based study of incidence and outcomes, 2005-2016

Version: 0 Date: 13 Nov 2018

Reviewer: Sangappa Dhaded

Reviewer’s report:

Modified definition of miscarriage (≤25 weeks) for the study include stillbirths. Therefore it is better to restrict the analysis to early miscarriage (<13 weeks) and this gestational age category exist in the HIPE data set. This approach will capture only miscarriage but no stillbirths leading to ease in comparison of this data with other data in the literature. More ever 90% of the miscarriages in this study are <13 weeks.

There is also need for editing the manuscript for English language.

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field

Quality of written English
Please indicate the quality of language in the manuscript:
