Reviewer’s report

Title: Pilot randomized trial of short-term changes in inflammation and lipid levels during and after aspirin and pravastatin therapy

Version: 0 Date: 10 Jun 2019

Reviewer: C. Matthew Peterson

Reviewer's report:

Well written manuscript. Data is sparse but useful to others who have similar research interests who are evaluating the dosing of this statin.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
The University of Utah has research interests regarding inflammation and methods to reduce it in the infertile couple. We have submitted grants regarding this subject to the NICHD. I do not feel conflicted in this regard, but disclose my similar interest in the subject matter.
