Reviewer's report

Title: Prevalence of sexually transmitted infections and associated factors among the University of Gondar students, northwest Ethiopia. A cross-sectional study

Version: 0 Date: 06 Feb 2019

Reviewer: Susan Dearden

Reviewer's report:

I am impressed by your sample size and response rate. Congratulations on your success.

This article needs a lot of editing for grammar, capitalization of words, spacing, and typos. For example, in the abstract, the word "Condom" is capitalized and does not need to be. The biggest problem I noticed were words that were capitalized incorrectly and spacing issues between words and paragraphs.

In the Background paragraph, check the last two sentences. Is there a word missing between 384.4 million 92.6? The sentence seems incomplete.

Another comment about grammatical errors--when talking about STIs, use "are" instead of "is" because the term "STIs" is plural. For example, "STIs are a common sexual and reproductive health problem".

The sentence "About 80-90% of the global burden of STIs found in the developing world where there is limited or no access to diagnostics(5)" seems to be missing a word.

"Adolescent and youths" should be "Adolescents and youths"

Data collection tool and procedures-check the paragraph, there is a typo

Table 1-"Percentage" needs to be aligned to the left to match the other titles

One problem I noticed in this article is the mention of a regression analysis, but no mention of results of a regression. I only see odds ratios included. Also, information about analysis should be more detailed. Include which variables you use in the model.

Discussion section—check spacing and capitalization

Level of interest
