Reviewer’s report

Title: Knowledge of obstetric danger signs and associated factors: a study among mothers in Shashemene town, Oromia region, Ethiopia

Version: 0 Date: 15 Nov 2018

Reviewer: Omari Phanice

Reviewer's report:

General comments
Good work, original research and good sample size.

Language
1. There is a mix up of the tense e.g "The information collected is used only for the specified objectives only and the data is anonymous to maintain the confidentiality of the participants" check also on the sentence structure e.g "The result showed that only 40% women was good knowledge"

2. please check also on the typographic errors e.g. "rick perception"

Methods
1. Explain the significance of doing sampling yet a census was carried out,

2. Briefly describe how simple random sampling was done to pick 4 out of 10 kebles

3. Elaborate further on how Knowledge questions were asked, scored and how the the average was calculated.

4. Ethical issues related to the study.

1. Explain how the ethical principles were addressed in the study.

Results

1. Tables; tables need to formatted to the journal requirements

2.

Conclusion.

1. Include areas of further research.
