Reviewer’s report

Title: Cannabis use during pregnancy and its relationship with fetal developmental outcomes and psychiatric disorders. A systematic review

Version: 0 Date: 11 Aug 2019

Reviewer: Nelson Feldman

Reviewer's report:

Very interesting literature Review about on current and important topic in Addiction field.

The manuscript is focused on cannabis use during pregnancy.

The influence of the consumption of other substances (tobacco, alcohol) on development of foetus and children is not discussed in the results. Factors such as psychiatric diagnoses, social and health condition are associated with the consumption of THC and other substances during pregnancy?

Some indicators of health or social factors may be associated with THC consumption during pregnancy?
