Title: Angular Photogrammetric Analysis of the Soft Tissue Profile in 12-Year-Old Southern Chinese

Version: 1 Date: 26 September 2014

Reviewer: Ali Farahani

Reviewer’s report:

Minor revision is needed

1- literature review is different, please include Angle Orthod. 2014 Jan;84(1):48-55.

2- what is specific about the some variables such as convexity angle, please add that this variable does not change much with aging (read Angle Orthod. 2014 Jan;84(1):48-55.)

3- change the Methods to materials and methods, or subjects and methods

4- please use a similar format for any software or material you used for the study, such as SPSS, brand name, company, city, country

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
