Reviewer's report

Title: Coronectomy as a surgical approach to impacted mandibular third molars: a systematic review.

Version: 2 Date: 7 December 2014

Reviewer: Julio Cesar de Oliveira

Reviewer's report:

Discretionary Revision

1- I suggest that authors can insert a fluxogramt of the results, because it makes it easier to read in their understanding and less boring.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
