Reviewer's report:

Dear Author
The manuscript entitled "Quality of life and problems associated with obturators of patients with maxillectomies" presents an interesting research, which I propose for publication.
Minor revisions are needed:
* Page 7, line 14. Instead of 13,3% were widow and 3.3% were divorced, it should be written, according to Table 1, 13,3% were divorced and 3.3% were widow
* Page 8, line 29. Instead of only 6% . . . . , it should be written 26% of responders had received radiotherapy
