Reviewer’s report

Title: Evaluation of piezocision and laser-assisted flapless corticotomy in the acceleration of canine retraction: A Randomized Controlled Trial

Version: 0 Date: 06 Dec 2017

Reviewer: Anthony Markus

Reviewer’s report:

Thank you for submitting this very interesting paper.

It is well constructed and the science is well conducted and described. However, there are very, many problems, mainly to do with the poor English. Also, there are some unexplained acronyms, for example, PROPEL

Before considering it further, the English needs to be checked by a professional service

When this has been done, please re-submit it

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?
If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
